Valli è un'azienda italiana che crea maniglie e accessori dal 1934.

Valli is an Italian company that has created handles and accessories since 1934.

Fondata da Pasquale Valli a Renate, in Brianza, Valli si è sviluppata intorno all'intuizione originaria del suo fondatore, secondo il quale una maniglia non è un semplice utensile di ferramenta ma una scultura dotata di una propria personalità, come una piccola opera d'arte domestica. La tendenza a concepire gli oggetti e i dettagli dal punto di vista della forma appartiene da sempre al modello creativo e artigianale italiano, che vede nell'innovazione una linea evolutiva della tradizione e nell'estetica una componente essenziale della funzione. È Carlo Edoardo Valli a perfezionare e portare a compimento l'intuizione del padre, inventando il concetto di "maniglia d'autore" e inaugurando, con grande anticipo sui tempi e sulle mode, una rivoluzionaria collaborazione con alcuni dei designer e degli architetti più conosciuti. Inizia così, con la linea Fusital, la produzione delle prime maniglie firmate.

L'approccio autoriale, insieme alla sperimentazione di forme e materiali sempre nuovi in tutti i processi di produzione, proiettano Valli nella dimensione del design industriale, trasformando l'azienda in un marchio apprezzato e riconosciuto in tutto il mondo.

Nel 2008 Valli entra a far parte del gruppo ASSA ABLOY accentuando la sua vocazione di brand internazionale con cuore, radici e anima italiani.

Founded by Pasquale Valli in Renate, Brianza, the Valli company grew around the ideas of its founder, who believed that a handle was not merely a simple piece of hardware but a sculpture with its own personality, similar to a small, domestic work of art.

A tendency to imagine objects and details from the perspective of shape has always been inherent to the Italian creative and artisanal model, which sees innovation as an evolutionary line of tradition and aesthetics as an essential component of function. It was Carlo Edoardo Valli who developed and refined his father's idea, inventing the concept of the design handle and launching, well ahead of the times and trends, a revolutionary collaboration with some of the best-known designers and architects of the time.

And that is how production of the first design handle began: with the Fusital line.

This creative approach, paired with constant experimentation with new shapes and materials throughout the production process, took Valli into the industrial design sector, developing the company into the globally recognised brand that it is today.

In 2008, Valli joined the ASSA ABLOY group, emphasising its identity as an international brand with an Italian heart, roots, and soul.

I valori di un'azienda come Valli non sono mai astratti ma, al contrario, si trovano incorporati all'interno dei suoi prodotti: ogni singolo esemplare di maniglia è il condensato di quella visione, perché quelli di Valli sono valori duraturi e si trasmettono integri e solidi nel tempo.

La cultura del progetto è il valore attraverso cui si produce il design: qui agiscono passioni, saggezza, consapevolezza, innovazione, dialogo, esattezza, efficacia e senso del bello. È la cooperazione di tutti questi fattori che permette di imprimere agli oggetti-maniglia quella sintesi di armonia e precisione, di forma e di funzione, che definiscono l'essenza più pura del disegno industriale italiano.

La stratigrafia e l'accumulo delle conoscenze sono valori integrati all'interno di tutti i processi produttivi. Alcune competenze derivano dalla sensibilità artigianale dei gesti che si ripetono e si perfezionano nel tempo, altre provengono dalla sperimentazione e dall'adozione di tecniche e strumentazioni innovative: insieme diventano essenziali per definire lo stile di Valli.

La versatilità è infine il risultato dell'intensa dialettica con i designer e gli architetti di tutto il mondo, che ha permesso di costruire un bagaglio di competenze unico, ricco e irripetibile. Grazie alla sua versatilità Valli è in grado di proporre un'estesa gamma di maniglie e finiture molto diverse fra di loro, di modificarle e migliorarle sartorialmente e di farle funzionare ovunque, adattandole a tutti i principali standard internazionali.

The Valli principles are fully incorporated into its products: every single handle embodies the company vision because Valli is founded on solid, enduring values.

Valli project culture brings passion, wisdom, awareness, innovation, dialogue, accuracy, effectiveness, and a sense of beauty into play when designing. It is the combination of all these factors that allows harmony and precision as well as form and function to coexist within these handles, all qualities that represent the essence of Italian industrial design.

The expertise that Valli has gained over time is integrated into all production processes. Some skills derive from the precision of manual actions that are repeated and perfected over time, others come from experimentation and the adoption of innovative techniques and tools: together they are essential to the Valli style.

Finally, versatility is the result of intense dialogue with designers and architects from all over the world, which has allowed the brand to build a rich and unique skillset. Thanks to this versatility, Valli can offer an extensive range of very different handles and finishes, modify and improve them upon request, and fit them anywhere by adapting to all the main international standards.

La cultura del progetto, la cura artigianale e la versatilità formano il prisma dei valori Valli.

Project culture, craftsmanship, and versatility represent Valli's core values.

Milano, Brianza, Italia. La tradizione e le radici del design d'autore.

Milan, Brianza, Italy. The tradition and roots of artisanal design.

La produzione di Valli, il cuore pulsante dell'azienda, si trova da sempre a Renate, Brianza, Italia.

Qui Pasquale Valli ha inaugurato il suo laboratorio ed è ancora qui che fra gli anni Cinquanta e Sessanta l'azienda ha acquisito una scala internazionale, costruendo gli stabilimenti e le strutture direzionali che ancora oggi ospitano la produzione e la direzione. Se Milano è la capitale del design italiano, la Brianza è la sua officina produttiva. È in questo perimetro geografico di eccezionale densità creativa che le forme, le idee, le invenzioni e le ricerche si traducono in oggetti concreti, diventando espressioni del Made in Italy.

Le radici del design italiano affondano in un contesto irripetibile, nato dall'evoluzione di una sapienza e di una capacità manuale secolari e di altissima qualità esecutiva, trasferite poi, con esiti eccellenti, nella cultura del progetto industriale, la stessa con cui Valli crea i suoi prodotti raccolti nelle due collezioni Fusital e Lab.

Valli production, the beating heart of the company, is located in Renate, Brianza, Italy.

This is where Pasquale Valli opened his workshop and where the company grew to an international scale between the 1950s and 1960s, building the structures that still house production and management to this day. If Milan is the capital of Italian design, Brianza is its workshop. It is in this geographical perimeter of exceptional creativity that shapes, ideas, inventions, and research are translated into concrete objects representing the Made in Italy brand.

The roots of Italian design stem from a truly unique context: born of the evolution of centuries-old wisdom, manual expertise, and extremely high manufacturing quality, and transferred into industrial design culture with excellent results. It is this same culture that Valli relies on when making its products, released under two different collections: Fusital and Lab.

Fusital è l'élite collection di Valli, ambasciatrice dello stile e della forma.

Fusital: Valli's élite collection, ambassador for style and form.

Nata nel 1976 quando Carlo Edoardo Valli decide di fondare un nuovo marchio, Fusital sancisce l'apertura dell'azienda all'universo del design e della creatività coinvolgendo da subito i designer e gli architetti più prestigiosi del panorama internazionale per realizzare l'idea di maniglia d'autore. Gae Aulenti e Achille Castiglioni, Norman Foster, Renzo Piano e Antonio Citterio, oppure Bob Noorda, al quale nel 1984 viene commissionato il nuovo logo e la corporate identity, sono solo alcuni dei nomi più noti tra coloro che hanno collaborato alla costruzione del mito di Fusital.

Oggi come allora Fusital resta la élite collection di Valli e raggruppa tutte le più prestigiose maniglie del brand, quelle in cui sono manifesti l'audacia dello stile e la cura dell'estetica. Le maniglie della collezione Fusital portano la firma di alcune delle maggiori personalità del design e dell'architettura contemporanea.

Founded in 1976, when Carlo Edoardo Valli decided to launch a new brand, Fusital marked the company's entrance into the universe of design and creativity, immediately involving the most prestigious designers and architects on the international scene. Gae Aulenti, Achille Castiglioni, Norman Foster, Renzo Piano, Antonio Citterio and Bob Noorda - who was commissioned to design the new logo and corporate identity in 1984 - are just some of the globally recognised names that have contributed to building the Fusital legend.

Today as yesterday, Fusital is Valli's high-end collection and comprises the brand's most prestigious handles, all defined by a bold style and strong aesthetic focus. The Fusital collection boasts handles designed by some of the leading personalities in contemporary design and architecture.

Lab è la collezione di maniglie concepita e disegnata totalmente in house all'interno degli atelier e dei laboratori di ricerca e sviluppo Valli. Il suo nome evoca la dimensione operativa del brand, proiettata verso il futuro, il costante perfezionamento ergonomico, l'evoluzione delle tecniche di lavoro, la sperimentazione di nuovi approcci e di nuovi materiali.

Le maniglie della collezione Lab si distinguono per l'attenzione minuziosa al dettaglio, per l'impeccabile efficacia delle meccaniche e per la straordinaria qualità esecutiva, esito di un perpetuo lavoro di aggiornamento metodologico, aderendo in maniera rigorosa ai principi di essenzialità della forma-funzione che identificano la cultura italiana del progetto industriale.

The Lab collection is entirely conceived and designed in-house at Valli. Its name evokes the brand's forward-looking operational model, constant ergonomic improvement, evolving techniques, and experimentation with new approaches and materials.

Handles from the Lab collection stand out for their extreme attention to detail, impeccable mechanics, and extraordinary executive quality. This is the result of constant improvement to the manufacturing process while never straying from the principles of form and function that define Italian industrial design culture.

Lab evoca la dimensione sperimentale del brand per tendenze, forme e materiali.

Lab embodies the brand's experimental approach to trends, shapes, and materials.

Un universo di maniglie multiforme, colorato, versatile e universale.

A universe of multiform, colourful, versatile and universal handles.

Aprire e chiudere una porta o una finestra sono due gesti istintivi che ogni giorno siamo abituati a compiere per decine di volte, sempre impugnando una maniglia. Nell'arco della sua quasi centenaria attività produttiva Valli ha approfondito e studiato i meccanismi del rapporto mano-oggetto con la ricerca dei suoi laboratori e atelier. L'esperienza accumulata nella sua storia d'impresa, l'uso di tecnologie all'avanguardia in tutte le fasi di produzione, il dialogo e l'interscambio continuo con le intuizioni di designer e architetti eminenti sono tutti elementi che hanno permesso a Valli non solo di presentare nel tempo alcuni dei prodotti più iconici e straordinari nel design della maniglia, ma anche di individuare soluzioni estremamente efficaci in termini di ergonomia, di affidabilità e di versatilità. Le maniglie e i complementi Valli, progettati con le tecniche più innovative e i materiali migliori, sono concepiti per durare nel tempo grazie a lavorazioni di grande efficacia meccanica ed estetica. Le competenze tecniche di cui il brand è portatore si manifestano in un'ampia gamma di stili, di valori formali, di colori e di combinazioni che possono interagire con qualsiasi stile e connotazione estetica degli spazi interni: un sistema creativo in costante evoluzione, in grado non solo di attraversare i cambiamenti del gusto e delle mode, ma anche di anticiparli grazie a un dialogo sempre fecondo con progettisti.

La visione globale del brand e un'attenzione ai mercati internazionali sono infine il segreto dell'universalità delle maniglie e dei prodotti Valli, realizzate per funzionare ed essere compatibili con tutti i principali standard internazionali.

Opening and closing a door or a window are instinctive actions that we perform dozens of times every day. And we use a handle every single time.

Over almost a century of activity, Valli has closely studied the relationship between hand and handle.

The brand's history and experience, the use of cutting-edge technologies at all phases of production, and continuous dialogue with distinguished designers and architects have allowed Valli not only to create some of the most iconic and extraordinary products in the handle design sector but also to identify extremely effective solutions in terms of ergonomics, reliability, and versatility. Valli handles and accessories, made with the most innovative techniques and the best materials, are designed to last thanks to highly effective mechanical and aesthetic techniques. The brand's technical expertise can be seen in a wide range of styles, shapes, colours, and combinations, with something to suit any interior style and aesthetic: a creative system in constant evolution, not only outliving changing tastes and trends but anticipating them thanks to a constant dialogue with designers.

Furthermore, the brand's global vision and attentive monitoring of international markets are the secrets to the universal nature of Valli handles, created to function and be compatible with all main international standards.

Le finiture e le lavorazioni assicurano la durata e l'estetica della maniglia.

Finishes and treatments ensure handle durability and aesthetics.

Quello di Valli è uno spettro di finiture ampio e completo, caratterizzato da una ricca, brillante e contemporanea varietà cromatica, in grado di confrontarsi con ogni tipo di progetto di interni. Le finiture svolgono una doppia funzione: da un lato proteggono la maniglia dal deterioramento d'uso, dall'altro sono un elemento decisivo nel definire lo stile e l'aspetto finale del prodotto. Nelle lavorazioni galvaniche, sia lucide che satinato, lo spessore del trattamento conferisce eccellenti prestazioni di resistenza agli agenti atmosferici e all'usura funzionale, prolungando il ciclo di vita della maniglia.

Valli offers a broad spectrum of finishes, characterised by an extensive colour palette, to suit any interior design style. Finishes perform a dual function as they protect the handle from wear and tear while impacting the final appearance of the product. In the case of galvanic processes, both glossy and satin, the thickness of the treatment ensures excellent resistance to atmospheric agents and functional wear, extending the handle's lifecycle.

Le finiture verniciate si riconoscono per la loro atossicità, la contemporaneità estetica data da una perfetta e omogenea stesura del colore sulla maniglia, oltre che per una sensazione naturale al tatto. Le maniglie con finitura PVD (Physical Vapor Deposition) propongono l'applicazione di un sottilissimo rivestimento di composti nano-metallici di elevata durezza, tale da conferire un grado di protezione sino a tre volte maggiore rispetto a una finitura tradizionale.

Painted finishes are atoxic and recognized for the aesthetic contemporaneity given by a perfect and homogeneous application of the color on the lever, they guarantee a natural sensation to the touch. Handles with a PVD finish (Physical Vapor Deposition) are coated with a very thin layer of extremely hard nano-metallic compounds, which provides up to three times the protection of a traditional finish.

L'expertise artigianale di Valli permette di creare pezzi unici e personali.

Valli's artisanal expertise enables the creation of unique and personal pieces.

Tra le specialità più peculiari del mondo Valli spicca l'alta capacità di customizzazione dei propri prodotti. All'interno di una filiera di produzione industriale che si avvale di strumentazioni e tecnologie avanzate, l'azienda mantiene ancora un'aliquota assai rilevante di expertise artigianale: è grazie a questa sensibilità, che deriva da una conoscenza profonda e personale dell'ecosistema-maniglia, che per Valli è possibile modellare, combinare e variare la silhouette di un prodotto di serie, dialogando con gli architetti e i clienti per trasferire nella realtà le loro intuizioni e necessità.

Ciò si traduce nella creazione di pezzi unici limited edition, prodotti di concezione sartoriale che utilizzano finiture, lavorazioni, elementi o abbinamenti inediti e fuori standard, maniglie di assoluta esclusività.

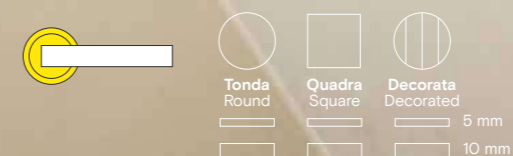

The countless options for product customisation are a distinguishing feature of the Valli brand. In an industrial production chain that uses advanced equipment and technologies, the company proudly relies on a significant portion of artisan expertise. The result of a comprehensive knowledge of the handle ecosystem, this sensitivity allows Valli to model, combine, and vary the silhouettes of industrial objects, while in constant dialogue with architects and customers to ensure their ideas and needs become reality.

This in turn leads to the creation of unique, limited-edition pieces with new and non-standard finishes, treatments, elements, or combinations, resulting in exclusive, tailor-made handles.

Possibilità di personalizzazione / Personalisation possibilities

Rosetta / Rosette

Finitura / Finish

Oltre 25 finiture con possibilità di trattamento PVD e antibatterico. Over 25 finishes with PVD and antibacterial treatment options.

Materiali speciali / Special materials

Possibilità di aggiunta, ove possibile, di inserti in materiali speciali sull'impugnatura (marmo, pelle, sughero, ecc). Additional optional inserts in special materials (such as marble, leather, cork, etc.) where possible.

Texture e forme / Texture and shapes

Lavorazione ove possibile dell'impugnatura. Handle processing, where possible.

Tutte le personalizzazioni tailor made ricadono fuori listino e prevedono pertanto una valutazione di fattibilità, minimi quantitativi d'ordine e un sovrapprezzo di customizzazione. Customisation requests are not included in the price list. Custom orders require a feasibility assessment, a minimum order, and a customisation surcharge.

L'intero flusso di lavoro di Valli, dal concept al packaging, è concepito nel segno della responsabilità e del rispetto per le persone e l'ambiente.

La responsabilità verso il futuro, il pianeta e le nuove generazioni, è oggi una categoria morale con cui ogni realtà produttiva ha il dovere di confrontarsi. Le scelte di oggi condizionano il mondo di domani. La cura, la precisione, il rigore sono codici iscritti da sempre nel catalogo operativo di Valli.

A ciò si aggiungono la massima attenzione all'efficienza dei processi produttivi e la eccezionale durata dei suoi prodotti, che contribuiscono nel tempo a ridurre drasticamente l'uso di risorse e di energie. Valli si impegna da tempo a utilizzare materiali riciclabili, ove possibile, a implementare i sistemi di risparmio energetico e idrico e recuperare e riutilizzare gli scarti di produzione.

Valli's entire workflow, from concept to packaging, is built on respect and responsibility towards people and the environment.

Today, all manufacturing enterprises have a moral duty to take responsibility for the future, the planet, and the generations to come. The choices we make in the present will impact the world of tomorrow. Care, precision, and dedication are the foundations of the Valli brand.

These are complemented by utmost attention to the efficiency of production processes and the exceptional durability of Valli products, which help to drastically reduce the use of resources and energy over time. Valli has long been committed, where possible, to using recyclable materials, implementing energy and water-saving systems, and recovering and reusing production waste.

La responsabilità è un principio abbracciato da Valli in tutte le fasi della produzione.

Responsibility is crucial at all Valli's production stages.

- Le maniglie Valli possono essere personalizzate scegliendo una finitura non standard tra quelle sopra indicate. Condizioni: **quantitativo minimo ordinabile: 24 set; tempi di consegna: minimo 8 settimane, da concordare; sovrapprezzo: da concordare con l'ufficio commerciale.**
- In caso di progetti, è possibile personalizzare le maniglie Valli con finiture speciali, previa visione del campione e/o del riferimento del colore specifico.

- Valli handles can be personalised choosing a non standard finish from those available in this page. Conditions: **minimum quantity for orders: 24 set; delivery times: minimum 8 weeks, to be agreed; surcharge: to be agreed with the Business Management.**
- Valli handles can be personalised for projects with special finishes, after seeing the sample and/or the specific colour code.

BioCote® è una tecnologia approvata da HACCP International e certificata secondo le norme internazionali ISO 9001 e ISO 14001: il trattamento è permanente e consente di abbattere in maniera drastica il rischio di contaminazione incrociata, riducendo fino al 99,5% il numero di batteri presenti sulla maniglia e fino al 99,9% la proliferazione di microbi.

Le finiture PVD possono presentare leggere differenze di tonalità rispetto alle corrispondenti finiture tradizionali.

BioCote® is an HACCP International approved technology, certified by international standards ISO 9001 and ISO 14001. It is a permanent treatment that drastically reduces the risk of cross-contamination, reducing bacteria on the handle by up to 99.5% and the proliferation of microbes by up to 99.9%.

PVD finishes can have slight tone differences compared to the corresponding traditional finishes.

Collezione / Collection

Fusital

La storia di Valli è quella di un lungo colloquio con alcune delle personalità più luminose del mondo del design e dell'architettura, un'antologia polifonica che ogni anno e a ogni collezione aggiunge un capitolo nuovo.

The story of Valli is a long conversation with some of the brightest stars from the world of design and architecture, a polyphonic anthology that adds a new chapter to each collection every year.

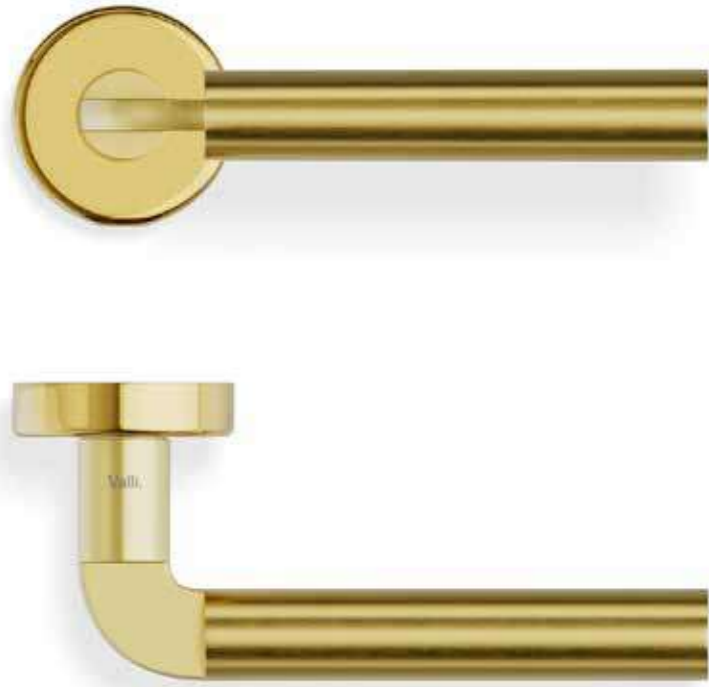

Eero Aarnio, Khalid Al Najjar, Mario Bellini, Taller Design, Ricardo Bofill, Pierluigi Cerri, CetraRuddy Architecture D.P.C., Joe Cheng, David Chipperfield, Antonio Citterio, Foster + Partners, Doriana e Massimiliano Fuksas, Eri Goshen, Zaha Hadid, Hans Kollhoff, Yoshimi Kono, Steve Leung, Richard Meier, John Pawson, Perkins&Will, Franco Poli, Yabu Pushelberg, Skidmore, Owings & Merrill, Matteo Thun, Giancarlo Vegni, Vincent Van Duysen

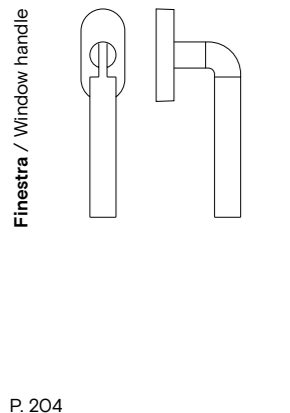

H 1026 Antonio Bullo si presenta con un design minimale ed essenziale, che combina le forme morbide dell'impugnatura cilindrica insieme al taglio secco e lineare della lama di congiunzione della leva con il perno, definendo un insieme elegante, solido e armonioso.
 H 1026 Antonio Bullo has a minimal design that combines a soft cylindrical grip with the dry, linear shape of the blade connecting the lever to the pin, creating an elegant, solid, and harmonious whole.

H 1040 Gabriele e Oscar Buratti è una maniglia di ispirazione razionale, elegante e dal carattere deciso, che si sviluppa intorno al tema della solidità e della geometria. Sull'impugnatura due facce piate si uniscono in un angolo appena accennato, ma capace di creare giochi volumetrici percepibili al tatto oltre che alla vista. / H 1040 Gabriele and Oscar Buratti is a strong, elegant and functional handle inspired by solidity and geometry. Two flat surfaces come together at a slight angle to form the handle, creating a play of volumes perceptible both visually and to the touch.

H 1039 Jean-Baptiste Sibertin Blanc propone una raffinata rivisitazione del concetto di maniglia classica lavorando con grande finezza sulla plasticità dei volumi. La lama piatta e morbida subisce una lieve torsione all'altezza del perno mentre l'impugnatura si allarga verso la punta, per una presa agile ed ergonomica.
 H 1039 Jean-Baptiste Sibertin Blanc elegantly reinterprets the concept of the classic handle, redeveloping the shape of the volumes with great finesse. The flat handle with rounded edges twists slightly at the spindle and widens dynamically towards the tip, for an agile and ergonomic grip.

H 1045 Yoshimi Kono è una riflessione sui concetti di stabilità e concretezza a partire da volumi puri ed essenziali. La base solida e regolare del perno si assottiglia e si allunga senza soluzione di continuità trasformandosi in una leva costituita da un'impugnatura sottile e rettilinea. / H 1045 Yoshimi Kono is a pure and minimal handle that reflects on the concept of stability. The solid and regular base of the spindle tapers and lengthens uninterruptedly into a thin and rectilinear lever.

H 411 Q Leila è una maniglia dal design asciutto e un'ergonomia efficace. La rosetta di forma quadrata le conferisce rigore e un segno preciso, senza pregiudicarne l'ergonomia. / H 411 Q Leila boasts a lean design and effective ergonomics. The square rose adds sobriety and a defining feature, without compromising ergonomics.

Descrizione parametri di indentificazione articolo

Description of article identification parameters

	<p>R _</p> <p>Articolo con rosetta, molla di ritorno e sottorosetta con viti a legno, quadro 7 o 8 mm, bocchetta con foro chiave normale. Article on rosettes with return spring and anchor rose with wooden screws, 7 or 8 mm spindle, with standard escutcheon.</p>
---	---

	<p>RB _ Y</p> <p>Articolo con rosetta fine, molla di ritorno e sottorosetta con viti a legno, quadro 7 o 8 mm, bocchetta fine con foro chiave cilindro. Article on slim rosettes with return spring and anchor rose with wooden screws, 7 or 8 mm spindle, with cylinder slim escutcheon.</p>
---	---

	<p>RB _</p> <p>Articolo con rosetta fine, molla di ritorno e sottorosetta con viti a legno, quadro 7 o 8 mm, bocchetta con foro chiave normale. Article on slim rosettes with return spring and anchor rose with wooden screws, 7 or 8 mm spindle, with standard escutcheon.</p>
--	--

	<p>RO8</p> <p>Articolo con rosetta stretta, molla di ritorno e sottorosetta con viti a legno, quadro 8 mm, bocchetta stretta con foro chiave normale. Article on narrow rose, with return spring, anchor rose with wooden screw, 8 mm spindle narrow escutcheon with normal key hole.</p>
---	---

	<p>RR _ R</p> <p>Maniglia destra senza rosetta. Right handle without rosette.</p>
--	---

	<p>RO8 _ Y</p> <p>Articolo con rosetta stretta, molla di ritorno e sottorosetta con viti a legno, quadro 8 mm, bocchetta stretta con foro chiave cilindro. Article on narrow rose, with return spring, anchor rose with wooden screw, 8 mm spindle narrow escutcheon with cylinder key hole.</p>
---	--

	<p>RR _ L</p> <p>Maniglia sinistra senza rosetta. Left handle without rosette.</p>
--	--

	<p>RG _</p> <p>Articolo con rosetta, molla di ritorno, sottorosetta con perni per viti passanti, quadro 8 o 8,5 mm, bocchetta con foro chiave normale. Article on rosettes with return spring and anchor rose for bolt through fixing, 8 or 8,5 mm spindle, with standard escutcheon.</p>
---	---

	<p>R _ Y</p> <p>Articolo con rosetta, molla di ritorno, sottorosetta con viti a legno, quadro 7 o 8 mm, bocchetta con foro chiave cilindro. Article on rosettes with return spring and anchor rose with wooden screws, 7 or 8 mm spindle, with cylinder escutcheon.</p>
--	---

	<p>RGB _</p> <p>Articolo con rosetta fine, molla di ritorno, sottorosetta con perni per viti passanti, quadro 8 o 8,5 mm, bocchetta fine con foro chiave normale. Article on slim rosettes with return spring and anchor rose for bolt through fixing, 8 or 8,5 mm spindle, with standard slim escutcheon.</p>
---	--

	<p>RG _ Y</p> <p>Articolo con rosetta, molla di ritorno, sottorosetta con perni per viti passanti, quadro 8 o 8,5 mm, bocchetta con foro chiave cilindro. Article on rosettes with return spring and anchor rose for bolt through fixing, 8 or 8,5 mm spindle, with cylinder escutcheon.</p>
--	--

	<p>RGB _ Y</p> <p>Articolo con rosetta fine, molla di ritorno, sottorosetta con perni per viti passanti, quadro 8 o 8,5 mm, bocchetta fine con foro chiave cilindro. Article on slim rosettes with return spring and anchor rose for bolt through fixing, 8 or 8,5 mm spindle, with cylinder escutcheon.</p>
---	--

	<p>P _ 70</p> <p>Articolo con placca, quadro 7-8-8,5 mm, foro chiave normale. Il numero 70, indicato a titolo di esempio, che è variabile e dipende dalle normative di ogni mercato, indica l'interasse in mm tra foro chiave e foro maniglia. Article on plate, 7-8-8,5 mm spindle, standard keyhole. The number "70" shown is variable and depends on the requirements of each individual market. It indicates distance between the spindle and keyhole centre in mm.</p>
---	---

	<p>P _ Y85</p> <p>Articolo con placca, quadro 7-8-8,5 mm, foro chiave cilindro. Il numero 85, indicato a titolo di esempio, che è variabile e dipende dalle normative di ogni mercato, indica l'interasse in mm tra foro chiave e foro maniglia. Article on plate, 7-8-8,5 mm spindle, cylinder keyhole. The number "85" shown is variable and depends on the requirements of each individual market. It indicates distance between the spindle and keyhole centre in mm.</p>
---	---

	<p>F</p> <p>Maniglia per finestra. Window handle.</p>
---	--

	<p>F RS</p> <p>Maniglia per finestra con movimento DRY-KEEP 4 e/o 8 scatti, disponibile con lunghezza quadro 27-30-35-41-45-50 mm. Window handle with DRY-KEEP movement, 4/8 click positions, available with spindle lengths 27-30-35-41-45-50 mm.</p>
---	--

	<p>F RS B</p> <p>Maniglia per finestra con movimento DRY-KEEP 8 scatti, su rosetta fine disponibile con lunghezza 41 mm. Window handle with DRY-KEEP movement, 8 click positions on slim rosette, available with 41 mm spindle length.</p>
---	--

	<p>RS 6-7-8 BZG</p> <p>Chiusura privacy, quadro disponibile 6-7-8 mm e lunghezza 75-85 mm, sottorosetta con viti a legno. Bathroom privacy set, 6-7-8 mm diameter spindle with length of 75-85 mm. Anchor rose with wood screws.</p>
--	--

	<p>RG 6-7-8 BZG</p> <p>Chiusura privacy, quadro disponibile 6-7-8 mm e lunghezza 75-85 mm, sottorosetta con viti passanti. Bathroom privacy set, 6-7-8 mm diameter spindle with length of 75-85 mm. Anchor rose with through screws.</p>
---	--

	<p>RS 6-7-8 BZG</p> <p>Chiusura privacy, quadro disponibile 6-7-8 mm e lunghezza 75-85 mm, sottorosetta con viti a legno, con indicatore libero/occupato. Bathroom privacy set, 6-7-8 mm diameter spindle with length of 75-85 mm. Anchor rose with wood screws. Vacant/engaged indicator.</p>
---	--

	<p>RSG 6-7-8 BZG</p> <p>Chiusura privacy, quadro disponibile 6-7-8 mm e lunghezza 75-85 mm, sottorosetta con viti passanti, con indicatore libero/occupato. Bathroom privacy set, 6-7-8 mm diameter spindle with length of 75-85 mm. Anchor rose with through screws. Vacant/engaged indicator.</p>
---	---

	<p>GL</p> <p>Maniglia per serratura porte vetro. Door handle suitable for glass door locks.</p>
---	---

R8 45 / 50

Molla / Spring **R8 45/50 - Rosetta da 45 a 50 (8mm)**
R8 45/50 - Anchor rose with wooden screws (8mm spindle)

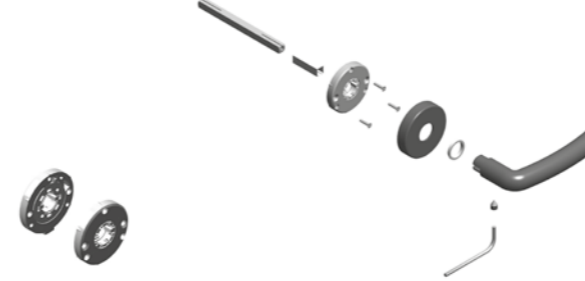

R08

Molla / Spring **R08 - Rosetta stretta (8mm) / R08 - Narrow anchor rose with wooden screws (8mm spindle)**

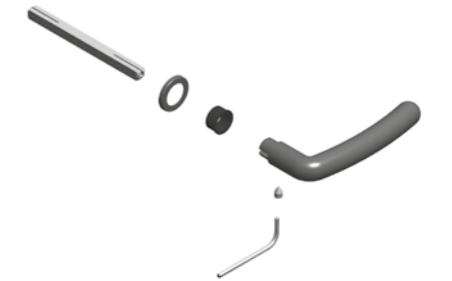

R7

Molla / Spring **R7 45/50 - Rosetta da 45 a 50 (7mm)**
R7 - Anchor rose with wooden screws (7mm spindle)

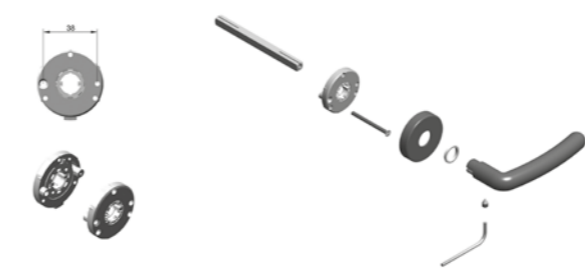

GL 8

Molla / Spring **GL8 - Rosetta porte vetro (8mm)**
GL8 - Anchor rose for glass door (8mm spindle)

RG8

Molla / Spring **RG8 - Rosetta da 50 e sottocostruzioni con viti passanti (8mm / 8,5mm) / RG8 - Anchor rose for bolt through fixing (8mm / 8.5mm)**

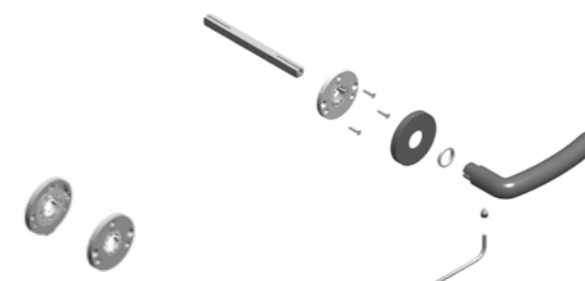

FRS

Molla / Spring **FRS - Movimento 4 scatti (disponibile anche in 8 scatti) / FRS - 4 clicks position movement (8 click position also available)**

RB8

Molla / Spring **RB8 - Rosetta fine 50 mm**
RB8 - 50 mm slim rosette

FRS B

Molla / Spring **FRS B - Movimento 8 scatti su rosetta fine**
FRS B - 8 clicks position movement on slim rosette

European Norm EN 1906:2012

4 7 - B O - O B

1 2 3 4 5 6 7 8

1	Categoria di utilizzo / Category of use
1	<p>Classe 1: Utilizzo di media frequenza delle guarniture, da parte di persone che sostanzialmente esercitano un utilizzo accurato e presentano un rischio ridotto per quanto riguarda l'uso non corretto (ad esempio per le porte interne di abitazioni). Class 1: Medium frequency of use by people with a high incentive to exercise care and with a small chance of misuse, e.g. internal residential doors.</p>
2	<p>Classe 2: Utilizzo di media frequenza delle guarniture, da parte di persone che esercitano un utilizzo sostanzialmente accurato ma che presentano un certo rischio per quanto riguarda l'uso non corretto (ad esempio per le porte interne di uffici). Class 2: Medium frequency of use by people with some incentive to exercise care but where there is some chance of misuse, e.g. internal office doors.</p>
3	<p>Classe 3: Utilizzo ad elevata frequenza delle guarniture, da parte del pubblico o di altre persone, che non hanno particolare cura nell'uso e per le quali esiste un notevole rischio d'utilizzo errato (ad esempio per le porte di edifici pubblici notevolmente frequentati). Class 3: High frequency of use by public or others with little incentive to exercise care and with a high chance of misuse, e.g. public office doors.</p>
4	<p>Classe 4: Per impiego su porte che vengono azionate spesso e con forza (porte in stadi di calcio, su piattaforme petrolifere, nelle caserme, toilette pubbliche, ...). Class 4: High frequency of use on doors which are subject to frequent violent usage, e.g. football stadiums, offshore installations (oil rigs), barracks, public toilets, etc.</p>
2	Resistenza di durata / Durability
6	100.000 cicli di prova/test runs
7	200.000 cicli di prova/test runs
3	Massa della porta / Door mass
-	-
4	Resistenza al fuoco / Fire resistance
O	non ammissibile per porte tagliafuoco o antifumo not allowed for fire doors or anti-smoking doors
B	adatta per porte tagliafuoco e antifumo suitable for fire and anti-smoking door

5	Sicurezza personale / Safety
0	per uso normale / for normal use
1	per uso con requisiti di sicurezza for use with safety requirements
6	Resistenza alla corrosione / Corrosion resistance
0	nessuna resistenza definita alla corrosione no corrosion resistance
1	ridotta resistenza alla corrosione low corrosion resistance
2	media resistenza alla corrosione medium corrosion resistance
3	alta resistenza alla corrosione high corrosion resistance
4	resistenza molto elevata alla corrosione very high corrosion resistance
5	resistenza estremamente elevata alla corrosione extreme corrosion resistance
7	Sicurezza contro lo scasso / Security
0	nessuna resistenza contro eventuale scasso no resistance against possible forced entry
1	ridotta resistenza allo scasso low resistance against possible forced entry
2	media resistenza allo scasso medium resistance against possible forced entry
3	alta resistenza allo scasso high resistance against possible forced entry
4	resistenza molto elevata allo scasso very high resistance against possible forced entry
8	Tipo di azionamento / Type of operation
A	con molla / with spring
B	con precarico a molla / with spring preload
C	senza molla / without spring

Finiture e grado di resistenza alla corrosione (Digit 6 EN 1906:2012)

Finishes and corrosion resistance (Digit 6 EN 1906:2012)

Grado / Grade	Finiture / Finishes
1	Brunito/Burnished
2	Orsatop/Matt brass, Anticato/Antique, Nikelnero/Black nickel, Bronzop/Matt bronze, Bronzo scuro/Dark bronze
3	Ottone antico/Antique brass
4	Acciaio inox 304 lucido/Polished 304 stainless steel, Acciaio inox 304 satinato/Satin 304 stainless steel, Orolucido/Polished brass, Orsatin/Satin brass, Nickel, Nikmatt, Bronzsat, Neropaco/Matt black, Biancopaco/Matt white, Light black
5	Acciaio inox 316 lucido/Polished 316 stainless steel, Acciaio inox 316 satinato/Satin 316 stainless steel, Orolucido PVD/Polished brass PVD, Orsatin PVD/Satin brass PVD, Cromo/Polished chrome, Cromo PVD/Polished chrome PVD, Cromosat/Satin chrome, Cromosat PVD/Satin chrome PVD, Titanium PVD

Alcune finiture presentano un grado di delicatezza maggiore, possono mostrare una non uniformità della sfumatura e tonalità e sono soggette a naturale usura, con alterazione dell'aspetto o deterioramento nel tempo, talvolta rilevando il colore dell'ottone sottostante. Le maniglie con inserti in pelle, ceramica, legno o metallo possono presentare leggere imperfezioni dovute all'assemblaggio manuale del prodotto finito oltre ad essere soggette ad una naturale usura legata alla natura dello stesso materiale, con alterazione dell'aspetto, del colore o deterioramento nel tempo.

Some finishes are more delicate than others, may appear uneven in nuance and tone and are subject to natural wear and tear. The product may change in appearance or deteriorate over time, sometimes revealing the underlying brass. Handles with leather, ceramic, wood, or metal inserts may show slight imperfections due to the manual assembly process and are subject to normal wear and tear related to the material itself. The product may change in appearance and colour or deteriorate over time.

Maniglie classe 4 (EN 1906:2012)

Class 4 lever handles (EN 1906:2012)

Classe 4: Per impiego su porte che vengono azionate spesso e con forza (porte in stadi di calcio, su piattaforme petrolifere, nelle caserme, toilette pubbliche, ...).
Class 4: High frequency of use on doors which are subject to frequent violent usage, e.g. football stadiums, offshore installations (oil rigs), barracks, public toilets, etc.

Durabilità Durability	Oltre 200.000 cicli di apertura Over 200.000 opening cycles	Resistenza al fuoco Fire resistance	Resistenza al fumo Smoke resistance	Elevata resistenza alla corrosione High resistance to corrosion	Con molla di ritorno With return spring
